June 30, 2018

EMERALD ANNOUNCEMENT

EPA'S HAZARDOUS WASTE ELECTRONIC MANIFEST ESTABLISHMENT ACT.

In order to comply with the Environmental Protection Agency's Hazardous Waste Electronic Manifest Establishment Act, which is expected to be fully implemented on June 30, 2018, Emerald Transformer will initially be submitting PDF (scanned images) copies of manifests to EPA electronically. The new five-page copy manifest will phase out the six-page manifest. Emerald Transformer Customers will still sign Uniform Hazardous Waste Manifests as they currently do. Customers will need to be aware which States are still requiring generators to submit their generator copies of manifests. Emerald Transformer will complete the transmittal of the manifests to EPA. Fees for this service will be determined at a later date. Emerald Transformer intends to move to the Hybrid (paper/electronic) option of submittal. When this takes place, customers will be notified accordingly. Emerald Transformer's ultimate goal is to comply with as little disruption to service as possible. Please contact your local Emerald Transformer location or Sales Representative if additional information is required at this time.
