EMERALD TRANSFORMER IS YOUR TRUSTED PARTNER FOR TRANSFORMER, REGULATOR, AND RECLOSER INVENTORY

With our Sold from Stock Program, we maintain a broad inventory of transformers in various voltages. With thousands of options in stock and our nationwide footprint, Emerald has your electrical equipment needs covered. We strive to have the **best lead times** in the industry and offer quick turnarounds on custom-built equipment.

INDUSTRY-LEADING 5-YEAR WARRANTY

We guarantee the highest quality and workmanship of our products and offer an industry-leading **5-year warranty**. We offer fully reconditioned units, as well as primary and secondary rewinds using copper. We accommodate all customer specifications and rebuild the unit by replacing any broken parts and installing new gaskets and pressure relief valves (PRVs). Based on customer specifications, we can also install parts like an internal fault detector (IFD) or wildlife guard. Units are then filled with new mineral oil or FR3 fluid. Tanks are sanded, prepped, primed, painted, and then custom-decaled to customer specifications.

Our veteran technicians, some working with Emerald for over 30 years, perform multi-point testing and inspections that result in the **lowest failure rate** in the industry. By using high-quality materials and adhering to rigorous testing standards, our experienced team is able to deliver transformers that you can rely on.

THE EMERALD ADVANTAGE

- Vigorous testing & highest quality
- Final Phenix test performed to ANSI/IEEE standards in order to offer 5-year warranty
- Nationwide coverage & rapid delivery
- Lowest failure rate in the industry
